LETTER OF INVITATION

Dear Prof. Alvar Ezquerra,

on behalf of the YERUN Researcher Mobility programme, I am pleased to invite you at the Department of History, Humanities and Society of the University of Rome “Tor Vergata” for the period from October 8th to 14th, 2018.

As you know, the programme provides support for researchers to undertake up to two weeks of research at one of the other YERUN partner institutions from a different country. Within this programme, the Department would like to host you to develop common activities with some of our professors of Classical Archaeology (professors Margherita Bonanno, Beatrice Cacciotti, Marcella Pisani).

In view of the importance of your research on the topic of the ancient Roman religion, and in particular, on the following subject: “Mitra y Magna Mater en Hispania”, it would be of great interest to the Department if you could hold seminars to our students of the doctoral degree courses. Your teaching activity will broaden and enrich the range and content of the courses offered at our University.

To increase inter-disciplinarity across our universities, it would also be very profitable if you could start collaborations with our academic staff on similar researches. Such researches could produce significant scientific outcomes, such as conferences, publications, etc.

I look forward to meet you and wish you a productive and successful time at the University of Rome “Tor Vergata”.

Yours faithfully,

Prof. Franco Salvatori
Head of Department
